

DRUGS

What is the problem?

The problem is our family members, people on the streets, and the dreams of the youth are dying because of drugs.

Why is it a problem? How is it impacting the community?

It is a problem because it affects the future of the younger generations. Drugs are killing the community. Neighborhoods are unsafe because of limited resources, financial situations, economical status, and stress.

Does it only affect your community? If not, who else does it affect?

No, drugs do not only affect our community. It affects everyone's community.

What can be done about it? (Be specific about your actions-hold voter education/sponsor a teach-in.)

We can inform the community about drugs through guest speakers such as rappers, actors, etc. Concerts can be held such as benefit concerts to outreach to centers.
